- Self-starter, takes initiative when introduced to projects at any point in development, carries projects through from inception to maintenance.
- Valuable team member, communicates effectively to collaborate with colleagues and coordinate all members' contributions.
- Excellent worker, organized and detail-oriented, takes pride in a job well done.
- Independent learner, willing and able to quickly acquire new skills.

Experience

Web Programmer

W3 Internet Services, Halifax, Nova Scotia — 2002-present

Worked with a team of programmers, designers, and project managers to develop and maintain ColdFusion, PHP, ASP, and CGI/Perl web applications for small-, medium-, and large-sized organizations and businesses. Contributed to projects and office management in a proactive manner to ensure clients' and co-workers' needs were met on a timely basis.

Programmer

one80 Knowledge Systems, Halifax, Nova Scotia — 2001-2002

With a team of programmers, planned and produced interactive ASP and PHP web applications. Reinforced client satisfaction by coordinating with quality assurance to test code and verify that requirements and client expectations were being met.

Freelance Web Programmer

Self-employed, Halifax, Nova Scotia — 2001-present

Built solid client relationships by dealing directly with clients to develop project specifications, then created, tested, and delivered ASP web applications for the clients.

Web Development Contractor

FDM, Raleigh, North Carolina & iXL, Vienna, Virginia — 2000

Coordinated with the programming team and other departments at iXL, a client of FDM, on the development of ColdFusion web applications. Also contributed to the FDM in-house development team and assisted new contractors in the FDM training program.

Education

Applied Information Technology Diploma, with Distinction

Information Technology Institute, Halifax, Nova Scotia — 2000

Quickly and independently learned new skills and used this knowledge to complete projects. Fulfilled potential as an effective team member by contributing to team projects and acting as team leader.

Bachelor of Science, Major in Psychology

Dalhousie University, Halifax, Nova Scotia — 2000

Gained a well-rounded education by excelling in courses in Psychology, Biology, Statistics, French, and others. Managed time in order to hold various part-time customer service positions while attending school.
